Belvedere Club

Be. Everything you wished for.

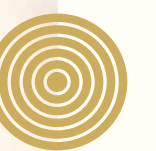

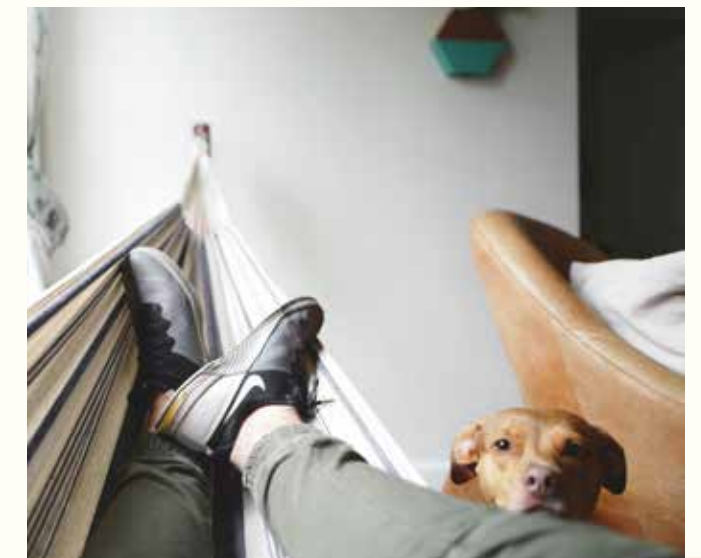

Your space. It means different things to different people. For some, it is a crowded concert that brings together multitudes from all walks of life. For some, it is a cozy get-together surrounded with those closest to them. And for some, it is an escape from the world to a journey inward where they discover new vistas of the mind.

But what if there were one space that could be whatever you want it to be when you want it? Where you could jump from one frame-of-mind to another without hesitation or warning. Where all that you want is waiting for you when you want it.

Be. Selective about your space.

Built over about 9290 sqm (1,00,000 sqft), the Belvedere Club is a creation of imagination. It is a space for the millennial as much as it is for the next generation. It brings together a selection of possibilities from intensive sports activities to leisurely fine dining and everything in the middle. The carefully designed spaces allow for large functions and intimate interactions with equal charm.

The entire complex has been divided into three primary zones, fitness, sports and entertainment. The modern architecture maximizes the use of daylight and space to the best international standards and practices. The double height entrance makes for an imposing impression every time you walk in.

Be. At the heart of the action.

The Golf Course Extension Road is the future of Gurgaon. An unexplored oasis of opportunity, it makes up for all the shortcomings of the Millennium City with wide roads, open green spaces, excellent connectivity and traffic management solutions.

The Belvedere Club, a part of the Samsara development by the Adani group, offers the first of its kind community and activity centre that matches the standards that the area is expected to rise to. The club offers its members recreational and networking opportunities that come with a rare pedigree refined over decades.
